Cox Automotive Australia Partners With Women in Automotive

Women in Automotive (WinA) is thrilled to announce Cox Automotive Australia will return as presenting partner for our Signature Series Luncheon in Melbourne on 19 September, 2024. The 2024 Women in Automotive Signature event presented by Cox Automotive Australia will be held at Zinc, Federation Square in Melbourne.

The continued support from Cox Automotive Australia marks a partnership built upon collaboration and shared values.

Their dedication to equality and diversity comes to life through their own global Women With Drive program, aligning seamlessly with our mission to drive positive change within the automotive sector and build a thriving community that inspires women to connect and succeed.

"We are truly proud to align Cox Automotive in Australia with an organisation such as Women in Automotive, with our shared mission to improve representation and income parity across all levels of the ever-changing auto sector," said CAA Human Resources Director Silvia Balovcikova.

"We believe there is strength in diversity, and while the automotive industry has a way to go to fully represent wider society, we see positive reform. Our shortlist of finalists for the 2024 Barbara Cox award, featuring high-achieving women from across the automotive industry, reflects just this.

"By acknowledging and celebrating the contribution of women in this industry today, we hope to inspire tomorrow's leaders."

Cox Automotive Australia is a leading creator of retail software for OEMs and car dealers, and also runs Manheim passenger, industrial and salvage auctions. It's an end-to-end full services business with more than 600 Australian staff, and part of a US-based, global organisation present on five continents.
